# On-line Analysers

## The key element for your process

With 50 years experience, over 1 000 Analyser shelters and cabinets, operating worldwide in the Oil & Gas, Chemical and Petrochemical industries, Actemium has developed particularly competitive know-how to meet all the customer needs. Independent from analyser manufacturers, Actemium can offer you the most appropriate solutions to improve your processes.

With an extensive expertise from design to maintenance, Actemium is recognized as one of the most important international player on this market.

### Mastering your process

- ✦ Increased safety
- ✦ Plant optimisation
- ✦ Quality control
- ✦ Environment

### Global concept

- ✦ Single source responsibility
- ✦ Rational design
- ✦ Turn key solutions

### Consultancy

- ✦ Audits
- ✦ Advise
- ✦ Specification and procurement
- ✦ Technical assistance

### Analyser shelters

- ✦ Analyser system integration
- ✦ Including HVAC, utilities, automation and fire & gas detection
- ✦ On site integration

### LNG sampling systems

- ✦ Highly accurate system
- ✦ No fractional distillation effect
- ✦ More than 90 systems in the world for LNG custom transfer, LNG carriers and LNG storage control

### Laboratories

- ✦ Prefabricated laboratories solutions for offshore
- ✦ Design, procurement and construction according to international standards

### Commissioning

- ✦ FAT
- ✦ SAT
- ✦ ATEX
- ✦ Start-up

### Training

- ✦ Internal and external training

### Maintenance

- ✦ Vendor independent
- ✦ Lumpsum maintenance contracts
- ✦ 24/7 Services
- ✦ KPI driven SLA

## Our activities

### Design

- From conceptual or basic design to detailed and construction engineering.

### Build

- Integration and construction of your analyser solutions.

### Maintain

- Maintain and optimise your analyser system.

## Safety, our priority

Safety is an absolute priority and a prerequisite on all our actions. Our teams and Business Units, operating under our safety management guidelines, are empowered and constantly focused on meeting our only possible objective: Zero Accident.

# An international presence and a local approach

Actemium is the VINCI Energies brand dedicated to industrial process. Present throughout the industrial life cycle, Actemium designs, builds and maintains its customers' facilities, with the aim of improving their industrial performance.

Its business units are located close to production sites, in which they build long-term relationships with their customers. Thanks to the profound knowledge of the customers process and equipment, they are able to design and implement customised solutions.

## Main customers

<b>ADNOC</b>	<b>ExxonMobil</b>	<b>Momentive</b>	<b>Solvay</b>
